Don't Lend Your DIRECTORY!

The patrons of our Directory are frequently inconvenienced by

BORROWERS;

not the stranger or private citizen, who steps in, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference, yet are TOO MEAN to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks unless you send for it before.

These same borrowers tell our Canvassers that they have no use for a Directory.

Preface

We have pleasure in presenting this, the second edition of Henderson's City of Moose Jaw Directory, to our patrons. In preparing this volume we have been gratified to note the mark of steady growth and advancement which is stamped so legibly upon every phase of the City's life and we have endeavored to faithfully chronicle this progress.

We thank our patrons for their support, which indicates their faith in the many advantages derived from a thorough, up-to-date Directory. We have endeavored to express our appreciation by the care we have exercised in seeking to give accurate and complete information.

HENDERSON DIRECTORIES, LIMITED.

City of Moose Jaw

An incorporated city on the main line of the C. P. R., 398 miles West of Winnipeg, and 442 miles East of Calgary. It is midway of the Province of Saskatchewan on the C. P. R. and 96 miles due North of the United States boundary. Located in 1882 by the C. P. R. when under construction crossing the prairies, on account of the water supply in the Moose Jaw River. It is situated in a beautiful valley at the confluence of the Moose Jaw River with Thunder Creek. High lands surround the City on all sides supplying most desirable locations for public institutions and private residences. The banks of the River are high so that perfect drainage is easily provided. The soil is a sandy loam free from mud and gumbo.

The Moose Jaw River dammed by the C. P. R. provides boating all summer for a three mile trip. There is a natural park on the river within the City limits. The City has an area of five square miles. It is regularly laid out with wide streets, and is compactly built; the business portion in the centre, principally brick blocks; private residences, schools and parks, extend to the high lands.

Railroads

Moose Jaw is the chief divisional point of the C. P. R. in Saskatchewan and is therefore known as the "Railroad City" of Saskatchewan.

It is the terminus of the Soo Line direct from St. Paul, 168 miles from Portal, where the Soo Line enters Saskatchewan. This Soo Line is the main artery by which thousands of American settlers coming to Western Canada travel.

Moose Jaw is the starting point of the Moss Jaw-Elbow of Saskatchewan line to Lacombe.

The C. P. R. Round House has 33 stalls and in connection therewith extensive machine and repair shops. In the City are located the C. P. R. stock yards, the largest between the ranches and Winnipeg; cost \$30,000. The C. P. R. monthly pay roll, during the busy season, at Moose Jaw, exceeds \$100,000.

Growth of City

The City's growth has been regular and in keeping with all Western cities or towns in their course of development. The assessments were as follows:

1902	\$896,219
1904	\$1,662,990
1906	\$3,951,770
1908	\$9,222,260
1909	\$10,781,035

The City owns its waterworks, sewers and electric light plant.

Schools and Churches

The City's schools and churches have kept pace with its business and material progress. The first public school in the old Northwest Territories was organized at Moose Jaw and the City has continued to lead in educational work. Today there are three large brick schools engaging 27 teachers (in collegiate and public school work) 5 of whom are graduates. The capital invested in schools aggregates \$350,000.

The City has 9 churches, the newest of which is the Zion Methodist Church completed at a cost of \$81,000. The total value of the church property is estimated at \$300,000.

Banks and Industries

Moose Jaw has 8 banks, 7 hotels, 12 wholesale distributing houses, flour mills, brewery, brick yard, nursery, sash and door factory, telephone system, iron machine works, two daily papers, and all lines of business—implement houses, dry goods, grocery, hardware, boots and shoes, drug and confectionery stores, livery stables, etc., etc., are well represented.

Public Offices

The increasing demands not only of the City's population but of the vast district tributary to the City have made Moose Jaw an important centre for Government institutions. Here is located a Dominion Lands Office having under its jurisdiction an area of over 38,000 square miles, in which there are, today, open for settlement 25,000 homesteads; and there are over 9,000 square miles of the district not yet surveyed, that is subdivided for settlement. From the 25th of March, 1907, when the office was first opened until the end of the year 4,499 homestead entries were made.

In 1908 there were 14,728 entries. In first 7 months of 1909, 11,066 entries.

Moose Jaw has a Customs Office, an independent port of entry. The Provincial Post Office Inspector and staff, as well as the Railway Mail superintendent, the chief collector of Inland Revenue for the province and the provincial meteorological office are located here. The old Court House has now given way to a new one which cost \$75,000. A land titles office is also assured in the near future.

Agricultural Background

The City is surrounded by a rich agricultural background of 1, 785,000 acres which, (although in a measure neglected for years for the reason that there were not enough settlers coming to Western Canada to occupy all the land from Winnipeg to Moose Jaw), is now coming to its own. Today the Moose Jaw district is recognized as one of the best wheat growing districts in the West. In 1905 the average yield per acre of wheat in the district was 27.56 bushels (Government Statistics), in 1906, 24.3 bushels. In 1907, with all the season's drawbacks wheat yielded from 12 to 30 bushels per acre, the greater part of which graded 1, 2, or 3, Northern. The district is equally noted for its flax and oat crop. In 1909 a record crop is assured.

Citizens

A word may be said about the citizens of Moose Jaw and the district tributary. They are all English speaking. The pioneers in the early 80's came from Ontario. They have been the foundation as well as prominent pillars in the superstructure of Moose Jaw's success. A continuous flow has been coming from Ontario every year.

In recent years the Maritime Provinces have sent a considerable quota. Old Quebec has added French Canadians. Many have come direct from Great Britain—English, Irish and Scotch.

A large number of Americans from a dozen states in the Union are here to stay. Add to all these a sprinkling of Germans, Norwegians and Swedes, all English speaking, and the admixture is sufficient to banish sectionalism and at the same time to develop the best that is in each; Canadians in the widest sense of the word.

The undivided support given to public schools and higher education by all classes in Moose Jaw indicates true citizenship for in our halls of learning the Dominion over, are educated the men and women in whose hands the destiny of Canada will be moulded.

Outlook

A glance at the railway map of Western Canada shows that Manitoba and the Eastern part of Saskatchewan are today gridironed with railways and their branch lines. The day of railway expansion in these is drawing to a close, with Moose Jaw and the Moose Jaw district it is only dawning. Settlers are pouring into the district. Those who drive 30, 50, and 80 miles to reach market, are today clamoring for railway facilities. Branch lines will be built ere long. The C. P. R. line will be completed Northwest to Lacombe; a short line will be built from Moose Jaw south to Wood Mountain where coal is found in abundance. Assurances are given that the C. N. R. will not stay its hand in South Saskatchewan half way across the Province. The G. T. P. has secured charter to build from Regina to Moose Jaw.

Moose Jaw does not live on past achievements. The present is the time for action. A Collegiate Institute, which cost \$120,000 with a new court house, with a new land titles office assured; with thousands of new settlers pouring into the district, Moose Jaw, the trading centre of an area half the size of the settled portion of Manitoba, will continue its onward march of progress and success.
